THE PRESIDENT'S TRIPS.

HE WILL PROBABLY VISIT THE SOUTH AND THE WEST

Various State Fairs to Be Visited-A Mammot. Invitation to St. Louis-Pacific Railroad | Investigation - Commerce Commissioners-Washington Affairs.

Washington, April 7. - The president and Mrs. Cleveland will probably make a series of trips through the south and west during the coming summer and autumn On Saturday, when a number of gentlemen from Atlanta, representing the various commer clal bodies of that city, called on 'the president, ex-Governor Bullock extended an invitation to the president to visit the south in the fall, about the time of the state fairs. Mr. Cleveland said that he would no doubt avail himself of the opportunity, and if possible would make a trip through the south, which he had long contemplated doing.

An invitation from the citizens of St. Louis, which is under the management of the St. Louis Post Dispatch, to visit that city in September, has already been the subject of much gossip at the White House, though the invitation, which will be signed by at least two hundred thousand persons, will not be formally presented for about two weeks yet. The president and Mrs. Cleveland have each been informed of the enterprise of the Post Dispatch, and to their close friends have conversed rather freely upon the subject. Mr. Cleveland has expressed himself quite favorably, and is anxious to make a tour of the western states. If he concludes to go west he will extead the trlp to the Pacific coast. Mrs. Cleveland is quite enthusiastic over the proposition, and is said to have expressed herself strongly in urging the president to break over his rule and go west and south for at least a month.

He, Osborne, then went to Smith in company with others to pay him his wages and to hear his defense, If he had any. Smith became violent, and, after wounding the clerk in the arm, he advanced with cocked revolver upon the blacksmith of the agency and Agent Osborne, when the latter, in self-defense, as he states, that Smith dead. The agent adds that he believes his action was entirely justifinble, and that by his timely shot he saved three lives, Both Osborne and Smith, the dead man, are from Tennessee, and are appointees of the present administration.

l'acific Railroad Investigation.

WASHINGTON, April 7. - Under the fifth section of the recent act providing for an investigation of the Pacific railroads some of the fund held by the treasury to their accounts should be deposited in first mortgage bonds. Secretary Fairchild recently applied to the attorney general for a decision as to what authority this section confers upon the treasary for the investment ln mortgage bonds. The attorney general has rendered a decision that under the law the treasury may invest in first mortgage bonds any money now in the sinking fund uninvested or hereafter coming into it, but that funds already invested in government bonds cannot be coaverted into mortgage bonds.

The ninety days expired a few days ago, and with the mass of testimony he had taken. A Bold Daylight Robbery.

Springrich, Ill., April 7.—A bold robbery was committed in Chatham township, Sangamon county, yesterday. A well dressed man with gentlemanly manners drove up to the farm of John Workman and represented himself as a land purchaser. Soon another stylish looking man drove up in a two-horse rig and introduced himself us an agent for the sale of agricultural implements. Workman started to show his visitors over the farm, when suddenly they selzed him and took \$6,000 from his person. Workman was about to start out to make a cattle purchase and the robbers evidently knew it. The thieves escaped.

DISASTROUS EXPLOSION.

Six Miners Instantly Killed and Thirteen Suffocated By Gas.

VINITA, I. T., April 7.—An explosion occurred at Savannah, h T., in coal shaft No. 2, yesterday, by which six miners were lnstantly killed. A rescuing party soon went down, and thirteen of these men were suffocated by the gas, making a total of nineteen deaths. These mines were worked almost exclusively by foreigners, most of them being Italians. The body of gas fired must have been immonse, and the torrent of flames forced from the month of the slope was over a hundred feet in height, and illuminated the whole country like an immense llash of lightniug. It was followed with such a concussion as to startle every one for miles around, roads have claimed that the entire sinking and people in the immediate vicinity were severely shocked. The engine house and lifting works, a structure over a hundred feet long and two stories high, was blown into splinters by the current driven out of the siope, and in a few minutes was enveloped in flames. From the character of the building, and being literally saturated with oil, it was not possible to save auything from the

A SURPRISING VICTORY.

THE CHICAGO REPUBLICANS SO RE-GARD THEIR CITY TICKET.

No One Prepared for the Astonishing Majority of Over Twenty-Eight Thousand. But One Labor Candidate Elected-The Small Prohibition' Vote-Comments."

CHICAGO; April 7.—The result of the election was a surprising victory for the Roche ticket. It had become plain to almost every one that the Republicans, backed by the best element of the Democratic party, would have an easy victory over the Socialistic Labor ticket, but scarcely any one was prepared for the astonishing majority of over 28,000. The figures, as reported by the official returns for mayor, treasurer, city attorney and city clerk are as follows: John A. Roche, Republican, 51,491; Robert L. Nelson, Labor, 23,481; C. Herman Plautz, Republican, 51,407; Frank A. Stauber, Labor, 23,514; Heurpstead Washburne, Republican, 51,723; Jesse Cox, Labor, 23,144; D. W. Nickerson;

The Prohibition vote was so small as to be scarcely worth consideration. Its only purpurpose in the present campaign has been to make Roche and his friends more anxious to talk about his plurality instead of his ma-

The only candidate of the Labor party elected is E. D. Coanor, the new Fifth ward alderman.

The proposition to annex a portion of the town of Jelferson is carried by a handsome vote. The vote for Col. Tuthill for judge of the circuit court, is also incomplete, but it is in keeping with the grand majorities of his companions on the ticket.

It is a difficult matter with so many polling places to rouse any public excitement, and it was not until evenlng that people appeared in the streets and down town hotels in search of election builetins. . Immediately after dusk, when it became known that the Labor party was hopelessly defeated, cheers rent the air, boufires were built, Nevin's band serenaded the newspaper offices, and later in the evening Battery D's blg gun went booming over the lake.

The Inter-Ocean this morning says: "The overwhelming umjority cast for Mr. Roche is an expression of disapproval of further essays toward class government. It is not evidence of public hostility to labor organizations, though it is an unmistakable protest against the prostitution, of labor organization to the desires of obliarchs who choose to call themselves Socialists."

The Herald says: "The so-called United Labor party must soon become aware of one thiag. If it is to hope for political life and usefulness it must speak in tones which will not be misunderstood against Anarchism and all those forms of Socialism which are repugnant to the spirit of American freedom. Failing in this its career will be a short one, and its capacity to punish euemies or reward friends will be small."

The Times says: "The people of Chlcago have given their answer, in no uncertain tones, to the brazen demand of the Hay Market banditti for a surrender of the municipal governments into their bloodstained hands. The candidate of the red flag barbarians for the mayoralty has been defeated by a majority approximating 28,000, and his associates on the city and town tickets have suffered a like righteous fate. The result is a manificient trlumph for the intelligence

and conscience of Chicago." The Tribune says: "The practical significance of yesterday's work is the example set to other citles of the way to meet the attempt to break down the barriors of the law and displace the American flag by the red flag. Dubuque has been captured by the enemy; New York, Milwnukee and Chelnnati had narrow escapes, and all because the Conservative element was divided, incapable, apparently, of sinking the partisan in the patriot. It is greatly to the credit of the Chicago Democracy that the monstrous advice of the man, who for eight years has been the

local leader of the party, was repudiated." Women Voting in Kansas.

KANSAS CITY, Mo., April 7 .- The streets Tuesday had something the appearance of a circus day. It was the first test of the new law giving the suffrage to women, and the gentler sex turned out en masse to exercise their privilege. White women and colored ones were on a footing of glorious equality and elbowed each other in the manner of eager customers at a "bargain" sale. Very little electioneering was done by the ladies, although some of the less diffident got in a word now and then for their favorite candidate. The women began to vote early in the morning and in about every ward, the first vote cast was by a feminiue hand. In Leavenworth it was the most exciting elec-

NEW YORK, April 7.—After all that was said about Weich, Keefe and Deasly refusing to sign with the New Yorks, it seems strange to find that the trio affixed their signatures to the contracts without any compulsion on the part of the club. The Result in Michigan.

DETROIT, Mich., April 7 .- The lutest returns of the vote on the Prohibition amendment give 6,000 innjority against lt adoption. The official returns are, slow about coming in and the Prohibitionists are claiming the state by a handsome majority to-day, but their claim is unfounded. It now looks as if 5,000 will be the figure by which the amendment was defeated.

OUT WITH HIS ARCHBISHOP.

Father O'Leary Champions the Knights of

Labor, and Gets Into Trouble, St. Lousis, April 7.— Rev. Father C. F. O'Leary, ex-editor of the St. Louis Catholic World, and until recently priest of the Catholic church at Webster Grover, a surburban town, is in open warefare against Archbishop Kendrick. O'Leary has been a warm defender of the Knights of Labor for several years, and took such a warm interest in behalf of the railroad strikers at De Sots last spring that he was transferred to Webster Grover, and his removal from the latter place last month was due to the same cause, his parish being split into two bitter factions one demanding his removal.

According to his own statement he went to the archbishop to obtain a letter of recommendation, to be used on a little traveling tour he intended to make the coming sum mer, and received instead an exeat, the archbishop desiring, he says, to get him out of his dlocese and jurisdiction, and get rid of him ontirely. They separated, as O'Leary expressed it, with the bridges burned between them. In an Interview this afternoon he

"Before the archbishop went to the Baltimore council I urged him to do all he could to oncourage the Knights of Labor, but he afterwards had a two hour's conference with the late Manager Hoxie, who, of course, made him believe that the knights ought to be suppressed, and the archbishop went to Baltimore and voted almost alone against the

Father O'Leary gained some notoriety by testifying before the congressional committee on the strike that he thought the use of dynamite to right wrongs might be justifiable in some cases. O'Leary shows a letter from Master Workman Powderly offering him a position on the paper ruu by the knights.

A Novel Petition.

CARLISLE, Pa., April 7.—Yesterday was licensing day in Cumberland county, and strong petitions for and against the licenses were presented everywhere. The temperance people won all along the line. In West Fair View, however, they got a rebuil for there a petition signed by women only was presented to W. F. Sadler, presiding judge of the court of quarter sessions of Cumber-land county, as follows: "We, the undersigned ladies, all of full age, residing in West Fair View, Cumberland county, would respectfully represent that we believe that a licensed hotel is necessary in our town, and we request your honor to grant a liceuse to Mr. Breckenridge. He is a worthy man, and fit to keep a licensed house. We feel sure that if a license is granted and our husbands can obtain a drink of liquor when desired they will not bring it home in large quantities, as nov, uor go away to llarrisburg for their liquor, and remain from home.

De Lessops' Son on a Jonruey.

CHICAGO, April 7. - Chnrles De Lessens, of Parls, France, vice president and secretary of the Suez and Panama Canal company, and son of the builder of the caual, was in the city yesterday. He came direct from New Orleans, where he has been visiting relatives. In the evening he left for New York and will sail for Havre April 9. Mr. De Lesseps, in speaking of the canal now iu construction, said that it will be completed iu 1889. All the installations are in and 10,000 men are at work. He said furthur, if they could obtain 30,000 men they could employ them. The men are in excellent health and are doing good work. The sanitary condition is good.

Cranky Women.

WARSAW, N. Y., April 7 .- Miss Affla A. Several of the children have been removed from the school in consequence. and others will leave if the letter is read. A number of women in the town have been acting very foolishly over this good looking. young murderer.

Mr. Carter, a Free Methodist minister, has been for some weeks back conducting revival meetings at the house of n man named La Bundy. His doctrines were obnoxlous to a large portion of the community, and a mob gathered around the preacher and his band, poured upon them a shower of rotten eggs and drove the ministers and his followers out of the place.

Winter Still in Michigan.

HANCOCK, Mich., April 7.—Decidedly the worst snow storm of the season is just over. The snow is thirty-four inches deep and drifted badly. The Hancock & Calumet railroad is blocked. The Marquette train was delayed several hours, and it took the Mineral Range train thirteen hours to go thirteen miles, from Calumet to Haucock. The first time for the season all traffic on the street was stopped.

Carl Schurz Not Offered an Office.

Boston, April 7 .-- Mead, Mason & .Company, of Newton Center, effected a settlement with their striking employes yesterday and the men returned to work -to-day. The stone masons felt very much elated over this settlement. The Boston strikers say that they will undoubtedly call upon all union men to sustain them in the present strike for the reason that if this contractor succeeds lu obtaining ten hours' labor from his employes all other contractors will have to abandon the nine-hour day.

Beck for U. S. Senator. It is with that we want to deal in this article. Mr. Gooding says that he is willing to represent the action of Democrats at a primary poll to be opened at the August election, and to pay the expense attending said poll. I have also been informed by reliable authority that he says he is sentimentally a Beck man, (though I do not remember hearing him say so), but he desires to represent the people in that as in every thing else, and not to be the candidate of a minority, or of any individuals in an individual sense. If this is Mr. Gooding's position, and I feel safe to vouch that it is, what more can any fair-minded man ask? Have I any right to ask him to let me dictate his vote, if the majority of Mason County Democrats are for some one else? Certainly not, and, if I have not, five hundred Democrats have not, except they be the majority. Now I am personally in favor of Beck for the Senate as long as he is willing and able to go, as the matter now stands, and believe him to be the peer of any statesman that America has yet produced, except the immortal Clay, whose life proved true, what he said ("he would rather be right than to be president"). But I have digressed. It has been claimed by some that Gooding was brought out by an anti-Beck party, because a good many of that class supported him. Well, if that were true they certainly were in the majority, and Gooding wouldn't be treating them very weil to pledge himself to Beck, but that is not true, for I don't believe that in my precinct, Minerva, there is one anti-Beck man. So it seems plain that to pledge himself to Beck would be an injustice both to himself and his constituents, except it be done in the manner proposed by him. We would suggest to the Gooding opponents either to make a tenable position of the Beck matter, or take a stand on something else, if oppose him they will, or better still open the primary poii in August and abide its action as Gooding declares that he will FAIR PLAY.

THE JERSEY LILY.

THE REASON WHY MRS. LANG-TRY WENT ON THE STAGE.

Why She Separated from Her Husband. Her Friendship for Freddy Gebhard. A Landable Desire to Get Rich-Future Prospects.

Mr. Charles Mendum, who for two years was the private and intimate business manager of Mrs. Langtry, does not believe that the Lily will marry Mr. Fred Gebhard for some time to come

"When Mrs. Langtry has all the money in THE Democrats of the Nicholas Sena- her own right and name that she wants," said Mr. Mendum, "then she may marry."

"Her whole idea is to become independently well off and possess a fortune, she has made by her own exertions. Rich as Fred Gebhard is, she would not be satisfied to divide his money. What she wants is her own. She Our of the four thousand emigrants has but two great dreads in life—one is getting old and the other is to be poor and old. She often said to me, and it was evidently, 4th of this month, we doubt whether therefore, an idea that stuck to her: "I want a half a million securely invested so that I cannot lose it. Then I shall leave the stage and devote myself to myself. Until then nothing shall swerve me to this side or that,"

Mr. Mendum thinks the Lily now has from \$350,000 to \$400,000 put aside—all of it pretty nearly in American mortgages. At first she sent her money to England for investmentabout \$50,000 of it. After that she got an American lawyer and began her American investments, which, all of them, bring her from 5 to 6 per cent, fully double the luterest she would get in England.

society for several years, and while money had been going out absolutely nothing offered itself whereby something would come in. At last Mrs. Langry became desperato. Her social successes had been very great in London. but these very successes cost a great deal of money. At leugth it came to the time when Langtry had been doing nothing and she had been urging him to find some business that would give him a maintenance. She got a sum from her father, and with what she already had secured enough to buy an interest in the phonograph, then a great invention and generally believed to be practical. With the money she had purchased an interest in two and three weeks to hear from him, but

"Finally she determined on a trip down to Bradford to see what had become of the phonograph and Mr. Langtry. She got there, and to her amazement found that not a thing had been done, that the phonograph had not even been started on its career, and that all the money Mr. Langtry had with him was gone with his boon companions. Bitter recriminations ensued and they parted forever, The following week Mrs. Langtry accepted an engagement from the Kendalls to play at £20 a week. She crowded the Haymarket theatre. Then they wanted her to go on a tour through the country at the same price, but she saw that if she could draw in London she could draw still better in the provinces, so she went on her own book. She played to the biggest money ever known in the large centers. She was anxious, however, to get to America, and wanted badly an American manager. Somebody suggested Henry E. Abbey, and hy pure luck he fell into a tremendous success, but one which he worked up beautifuliy."

OVER THE RIO GRANDE.

The Old Adobe Town of Paso Del Norte,

Scenes Along the Italiroad. Crossing the iron bridge over the Rio Grande the first place is Paso Del Norte, a Mexican town of about 6,000 inhabitants. It is an old adobe town, embowered in trees and vines. As we passed rapidly through its dusty streets and glided by its gay houses surrounded hy high adobe walls, beautiful gardens, rich with flowers and trees of magnificent foliage, were to be seen on either side. Here and there a picturesque group of natives, clad in cotton shirts and pants, their heads shaded by straw somhreros of huge dimensions, were at work in the fields or idling beneath the shade of magnifleent trees. Again they were to be seen tramping behind the patient burro, or riding that useful animal through the dusty streets. It is a comical sight to see a little, dusky, long eared aniing a load of wood or hay so large that one can only see a head decorated with a pair of long ears, four feet in rapid motion and a tail wagging as if it expressed naught but pleasure and contentment.

In the doors and windows now and then we caught a glimpse of a senorita, who favored us with a glance from a pair of sparkling eyes. Little bare legged urchins emed to be plentiful, and as they ran out horse were and what changes American capital and energy would make in their land ere they passed the line that divides childhood and manhood. Paso Del Norte lies in a beautiful valley and the surrounding mountains standing with the shadows of the setting sun upon them, enhanced the scene by their picturesqueness. In a few moments we arrived at the Mexican Central station, a fine adobe structure with an open court, in the center of which were magnificent tropical plants and flowers. There are ample verandas on all sides, on which open offices, waiting rooms and a restaurant. After partaking of a good supper we attended to our baggage. The custom officers examined it and placed card on every article, which permitted it to enter the republic. They were very courteons and by no means prying in their examin-

Leaving Paso Del Norte we pass through the country south, along valleys surrounded by low mountain ranges and through the rich pastures of San Juan, Encinales and Sauz. Each little station pours forth its crowd of dusky inhabitants, and although we hear the click of the telegraph and see the well known sign of Wells-Fargo, we look in vain for the enterprising American. Venders of fruit, candies, milk, chocolate and bread cry their goods upon each side of us wherever we made a stoppage. The country is a pastoral one on an enormons scale. Many thousands of cattle are grazing near the track and their trails run in ail directions. As there are no fences we often hear the sharp toot of the whistle, and as we crane our necks out of the window we see cattle and other animals scampering away from the train. Night approaching we withdrew from the windows, and after whiling away a few hours card playing, singing, etc., we retired to our comfortable berilis.—Cor. San Francisco Chroni-

BRITISH WARSHIPS AT CARACAS.

Diplomatic Relations With Venezueia Severed-A Steamer Sent for Troops.

HAVANA, April 7.- News just received by the Spanish steamer Viliaverde from Venezueia reports stirring times there. Three British men-of-war are in the harbor of Puerto Cabello, the port of Caracas, the Venezuelan capital. The British minister has left the capital and is on board one of the warships, diplomatic relations between the British and Venezuelan governments having been severed. The complications are due to the imprisonment of English sailors and citizens in 1883 without just cause, intermixed with the question of boundaries between British Guiana and Venezuela.

Sir William Robertson, British minister at Caracas, demanded satisfaction and the release of the soldiers and passengers of the English vessels, Henrietta and Josephine, and later demanded compensation from Venexuela, but without result. In October last the English government demanded an instant reply. The matter was again brought before the government of Venezuela, but as no satisfaction could be obtained dipiomatic relations were severed. A steamer has been dispatched to one of the British islands for troops. The Venezuelans consider a dire erisis at hand. They had refused to yield when the steamer Villaverde sailed.

Effect of the Interstate Law.

Boston, April 7.-A Portland special to the Herald says: Aithough not an interstate road the Maine Central carries so much interrate freight that' its managers issued a new schedule of rates for the entire line special freight and passenger rates have been abrogated. Under the long and short haul clause of the law the old rates at points where there is water competition lower formerly than the rate for short distances have been advanced fifty per cent. or more. The management has made a general restitution of charges in first and second class freight in some cases six cents per one hundred pounds: General Freight Agent Eater says: In arranging the new rates we have the ideal and it would be as discreditable to try to make the law obnoxious as it would be to evade it. We have endeavored to make an equitable arrangement of our rate under its provisions." A special to the Herald from Bangor, says. The Maine Central new freight schedule causes great dis-satisfaction here. Our merchants falk of combining to establish steamboat lines to Boston and New York, and a paper is in circulation among heavy receivers and ship-pers, the signers of which agree to transact no business with the Maine Central.

England Wants Tortugas Island. HAVANA, April 7 .- Great Britain has demanded \$1,000,000 of Hayti as a settlement in full of old demands. Failing its immediate payment she wants Tortugas Island, which lies off the north coast of Hayti. The island is about thirty miles long and is well wooded and watered. It is inhabited by a small fishing population. To a first-class power like England the island would be very valuable. The Haytians were badly frightened when the British fleet, under Admiral Lyon, recently steamed into the harbor of Port-au-Prince. They thought the British had come to take possession of all their islands. The settlement of the claims has been intrusted to a special commissioner, Mr. Clement Hill, who is at present on board the war ship Canada, awaiting final adjustment.
